

# 80<sup>th</sup> Anniversary of TRIX EXPRESS

**Saturday, 24th & Sunday, 25th October 2015 (setup Friday 23th)  
Gustav Heinemann-Schule, Waldsassener Straße 62, 12279 Berlin, Germany**

## **UK visitors and exhibitors welcome**

At the Leipzig Fair in Spring 1935, TRIX presented the very first modern table top train. TRIX EXPRESS took many technical innovations. This was a great success and a model for other brands.

This is the theme for the next great historic model railway show in Berlin, similar to the anniversary exhibitions of the last years. This exhibition will include 25 historic steps of model train evolution. We will have interesting layouts from German and international exhibitors. We can buy and sell at a private swapmeet. Franz Nowack will bring his excellent range of spares.

British TRIX enthusiasts are invited to Berlin and to be part of the show with their own layout. The Berlin TRIX friends will help by supplying tables, bakelite track, AC & DC power supplies and other basic requirements. Like the Berlin meetings in the last years we will support UK guests with help and advice so that they have a good time.

Information will be provided on: [www.trixstadt.de](http://www.trixstadt.de)

If there are any general questions please send an email to: [trixstadt@web.de](mailto:trixstadt@web.de)
