

TTRCA

Regional events (usually three each year) are held in various parts of Britain. Members are able to gather to discuss all aspects of collecting and maintaining Trix, to buy spare parts and browse the wide variety of Trix available on the sales tables. In addition, members operate layouts at these events so that Trix can be enjoyed as it was intended – in action. The Annual General Meeting normally takes place in October or November during one of these events. One of our members opens his superb Trix Museum to members on selected dates.

TTRCA

TTRCA members receive the TTR Gazette four times a year. The full-colour publication contains articles about operating and collecting Trix, TTR and Trix Express. Features include historical information, repair and maintenance advice, and members' letters and emails. There is also a diary of Trix related events (where to see layouts etc), and a members' sales and wants page.

The Association, through the Spares Officer and Special Projects Team, organises the manufacture, supply and sale of a comprehensive range of replica spare parts. This service is vital for all those members who enjoy running Trix, and those who wish to restore their collections to a reasonable standard. Advice and guidance is freely given on the technical aspects of repairing and maintaining locomotives and accessories.
